Coronavirus Update – Small Business Rates Grant

This is addressed to clients who can claim either:

- The £10,000 Small Business Grant – Click [SBG](#), or
- The £10,000 or £25,000 per property Retail Hospitality and Leisure Grant – Click [RHLG](#)

Official Government advice is to wait for the local authority to write to eligible businesses to invite them to apply but some of the application forms seem to be up on the local authorities websites so we would encourage clients to submit claims as soon as possible.

You should be able to google your local authority but to help speed up the process, if you are in any of the following areas please click on the name to take you through to their site:

[Tonbridge & Malling](#)

[Wealden](#)

[Rother](#)

We couldn't find the application forms on the [Tunbridge Wells](#) site but a number of clients have been directed to [TW Bo Co £10k](#) for the smaller claim. Alternatively, the Tunbridge Wells link above gives a contact number to use from Monday.

We do like this entry on one local authority page:

There will be no need for businesses to apply for the grant. Currently, we are starting to receive applications for the business grants and we are working on processing them.

We are available to answer any questions you may have about government support in these difficult times but in the first instance, please click [here](#) to see the latest updated advice from the UK government.
